Merchandise is subject to availability.

Adult urns range in size depending on design and material. Most standard urns are 6.5"D x 10.75"H. They are designed to hold about 200 cubic inches of cremated remains. All of the adult urns we offer are large enough to hold the cremated remains of one adult person. If desired, we can discuss companion urns which are large enough to hold the cremated remains of two adults. Keepsake urns can hold a portion of cremated remains but are smaller than an adult urn. Keepsake urns vary in size but many hold between 1 and 5 cubic inches of cremated remains, with a cubic inch being equal to about 1 tablespoon. Keepsake jewellery will hold a small portion of cremated remains, but most will hold less than 2 cubic inches of cremated remains.

Unless otherwise identified, all applicable taxes will be added to the prices indicated
